

Gift and Endowment Details:

All gifts to the Bishop Scholarship Endowment will go into a permanent restricted endowment. These funds will be managed as a part of the College's endowment and are under the authority of the College Board of Trustees.

The Institutes Endowment policy will direct a yearly withdrawal of 5% of the last three years average. This will provide \$50,000 a year for Bishop Scholarships when the Endowment goal is reached.

Bishop Scholars come from all parts of the globe, make a positive impact on the college as students and go on making a positive difference throughout the world.

All have ties to the Methodist Church, are from outside the United States, and are involved in their ministry and service.

Bishop Scholarships are applied in addition to all other financial aid that is available through the college and other sources. Scholarship amounts range in relationship to need. As international students, these students do not qualify for US loans and other government need based programs.

Scholarships will be awarded based on the following criteria after the student is accepted by the college:

- Methodist Affiliation
- Financial Need
- Interest in ministry
- Leadership potential
- Global Perspective
- Potential Impact
- Referral
