Nurturing the life of the Institute

Ambassador Update

Institute for Discipleship

Ambassadors nurture the life of the Institute for Discipleship through their prayers, advocacy, and financial support, advancing the Kingdom of God worldwide.

November 2023: Support

As my resources of time, energy, and finances come and go throughout my life, I like you, stand at a switching station making constant decisions. The core question is "What do I support?"

The world doesn't lack worthwhile causes in need of support. Some are needs I have myself, some are for family. In our communities, there are folks in need. At a global level, the needs are mind boggling!

One of the three areas of focus in the Institute mission is assistance in helping Christians discern their call. This work has some big forks in the road such as marriage and career, but it has daily moments as well.

As an Ambassador of the Institute for Discipleship, you are choosing to support efforts to help Christians grow in their faith, expand their ministry, and learn from others in the body of Christ. We deeply appreciate your support of this ministry.

I trust you will experience a sense of purpose and joy in your choice to support the work of the Institute. Your support is bearing good fruit!

May the God who supports us all continue to bless you.

Every donor, leader, and participant helps us grow!

Steve Wilke
Executive Director

P.S. We are progressing toward our goal of having 100 ambassadors!

Our App Is an Award Winner!

Your support has been instrumental in bringing the BeADisciple Study App to life, and now we have outside affirmation of the effort:

The BeADisciple Study App was named best in class for internet communications in the 2024 United Methodist Association of Communicators Awards competition.

**BeADisciple
Study App**

The app, which began public beta testing in August 2023, is a ministry of the Richard and Julia Wilke Institute for Discipleship and is designed to be the next generation of small-group Christian study. It combines quality content with the dynamism of digital technology and the power of small-group study. All study materials are on the app, including lessons, videos, readings, and the complete Common English Bible. In addition to complete personal study information, users attend small-group meetings through Zoom conferencing and have 24/7 connection through messaging and discussion threads.

Judges were impressed by the ambitious scope of the project. “This app is amazing!” one wrote. “Very robust with so many features to engage the user. It's easy to navigate and very aesthetically pleasing.”

In addition to mobile apps, categories in the internet class included websites (two divisions), blogs, and social media (two divisions).
